

## STRANGEST LOVE

stuck here  
so far from home  
talking  
but they don't know

can't make sense of the signs  
i thought i would die

til you looked in my eyes  
til something changes  
it's a different language  
his words say too much  
and get in the way  
we talk in the strangest love

i never had  
any where to go  
nothing  
i've been here all alone

no one to show me  
no one can hear me  
baby just tell me

til something changes  
it's a different language  
his words say too much  
and get in the way  
we talk in the strangest love

til something changes  
it's a different language  
his words say too much  
and get in the way  
we talk in the strangest love

i don't have to know what you're saying  
i don't have to be afraid no more  
don't talk no more  
that's not what words are for

til something changes  
it's a different language  
his words say too much  
and get in the way  
we talk in the strangest love

strangest love

strangest love  
strangest love  
strangest love
