

# Traditional

White christmas

the actual tune is played by the bass guitar but can be also played by the electric guitar and the piano

```
E-----7--5-----7--5-----|
B-----8--6-----8--6-----|
G-----7--5-----7--5-----|
D-----|
A-----5-7-5--5-----5-7-5--5-----5-7-5--5-|
E--5-7-8-----8--5-----5-7-8-----8-----5-7-8-----8-5-|
```

```
E--7--5-----|
B--8--6-----|
G--7--5-----|
D-----|
A-----57-7-7-5-----|
E-----5-----|
```

Do this in a AABA pattern and the 'B' part of the pattern is moving the above tune and cords up a semi tone. After completing this pattern the bas guitar goes into a walk and the other instruments solo. When soloing over the A pattern you should use a c major scale and when soloing over the B pattern you should use a G major scale.
